

Overall Commercial Foodservice Sales Per Quarter for North America

4th Quarter 2020 data less severe than Q2 or Q3;
6% Increase Forecasted for 2021, largely in second half

4th Quarter 2020 data less severe than Q2 or Q3; 6% Increase Forecasted for 2021, largely in second half

Overall sales in the 4th Quarter of 2020 shrank by -19.4% from Q4/19. This reflects a bit of an improvement from the Q3/20 decline of -24.4% and the Q2/20 plunge of -30.4%.

By category, the breakdown is -39.5% Tabletop, -27.9% Furniture, -19.6% Supply, and -16.0% Equipment.

By Region, the declines vary as follows: Midwest -25.9%, Canada -25.0%, The West -24.7%, The South -13.6%, and the Northeast -10.6%.

For Q1/21, MAFSI Reps are forecasting a continuing decline of -18.9%, as Q1/20 was still predominately pre-Covid. For Calendar 2021, Reps are forecasting an increase of +6.0%, with the brunt of this gain largely achieved in the second half of the year, assuming Covid abatement and relative normalization of the Hospitality Industry.

Consultant Activity has slowed with 35% of Reps reporting less versus 22% more and 42% no change. This by itself, is a prediction of a slowdown as fewer projects were created and entered the pipeline during the Pandemic.

Given the volatility and uncertainty of these challenging times, the importance of the MAFSI Business Barometer has never been greater. With the exception of a couple of "outlier" quarters the MBB has been 98% accurate over the past 20 years in its forecasting ability.

Executive Summary written by Michael R. Posternak, PBAC and Associates, Eastchester, NY. Mp@pbacrep.com.
